Splash Screen

Intro screen for the app (We can add upto 5-8 intro screens for the app or an animated video

2. Sign up/Sign in screen - One can sign up by an OTP that will be sent via SMS or by whatsaap whivch ever is convenient in real time .

NewsFeed Screen

Icro Blogging for people to interact. People can post any pictures and type texts and people can follow and unfollow people and posts. Users can comment and like following posts and engage wih their favorite followed people.

A Verified badge will also be provided to the administration panel to designate verified badges to profile. Administration can delete users, comments and revoke users in case of any false claims and privacy breach.`
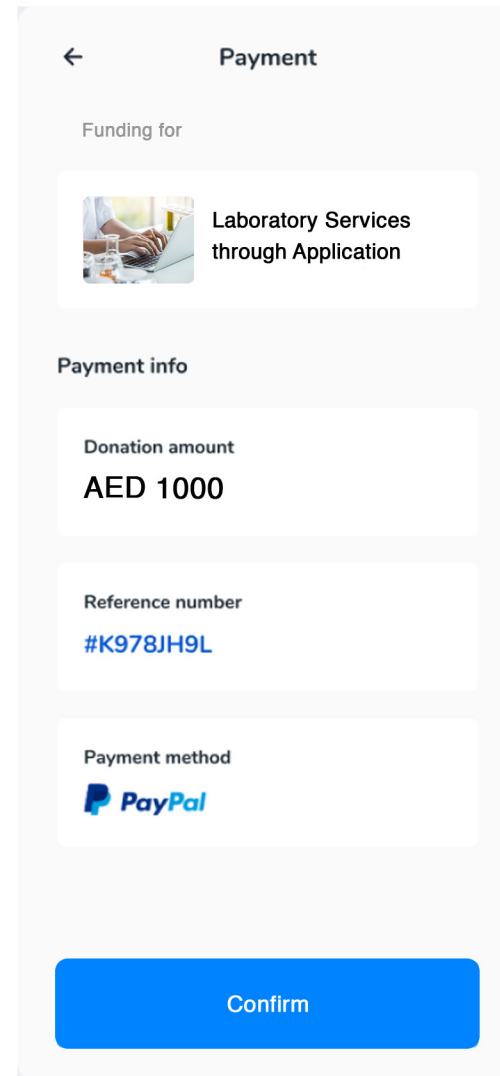

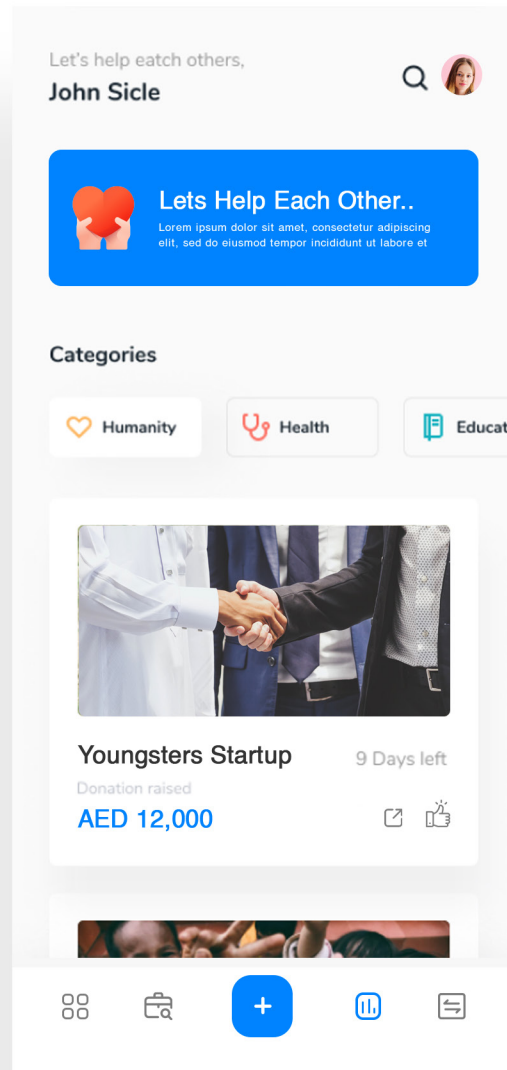

Jobs Search Screen

Jobs for people who are looking to expand their career. People can find vacancies based on the filters assigned by the administration panel. A filter and sorting will be provided on the lines of linked in.

Once a job has been chosen, the requirement, eligibility criteria, location as per google maps, contact details and features and perks can be mentioned.
.
Once who applies for jobs can either fill up a form or upload a PDF within 2 MB, the recruiter will recive the application in real time.

Business Funding Screen

Sell Business is a one of the highlights on the app.
One can post pictures and description of a business he/she wants to sell and can actively look for buyers.
One can share a particular posting, give a thumbs up, comment down and can also see number of views this would enlighten the user experience of the app.
